Step 1 — SIM Network Lock - How to Unlock Sony XPERIA Phone

- Make sure your phone is locked and is prompting you for a network code when a non-supported sim is inserted.
- Check the lock status:
 - From Phone dealer enter this code - `*##7378423#*`
 - > Service info
 - > SIM lock

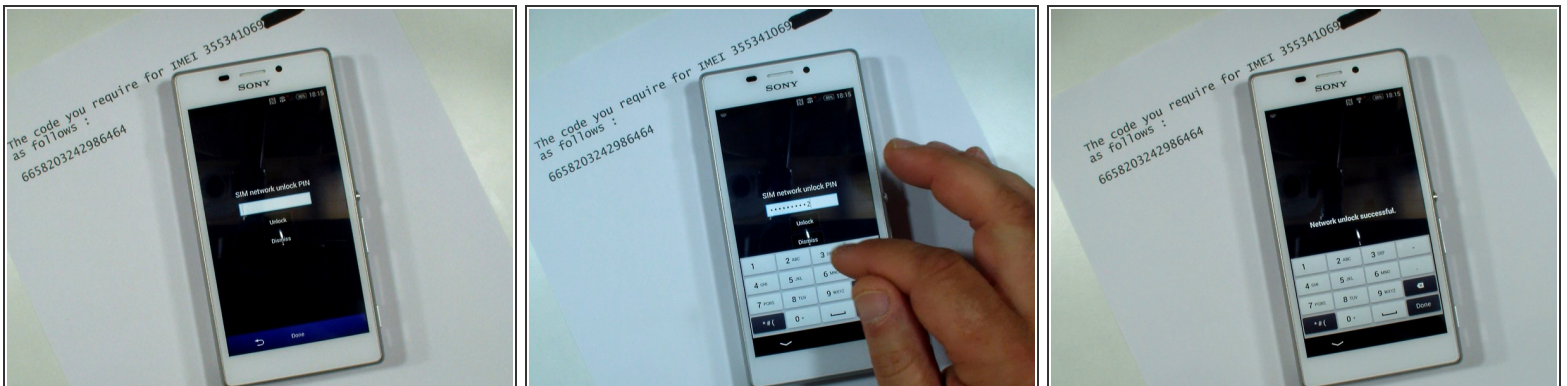

Step 2

- Confirm your phone is eligible for the service.

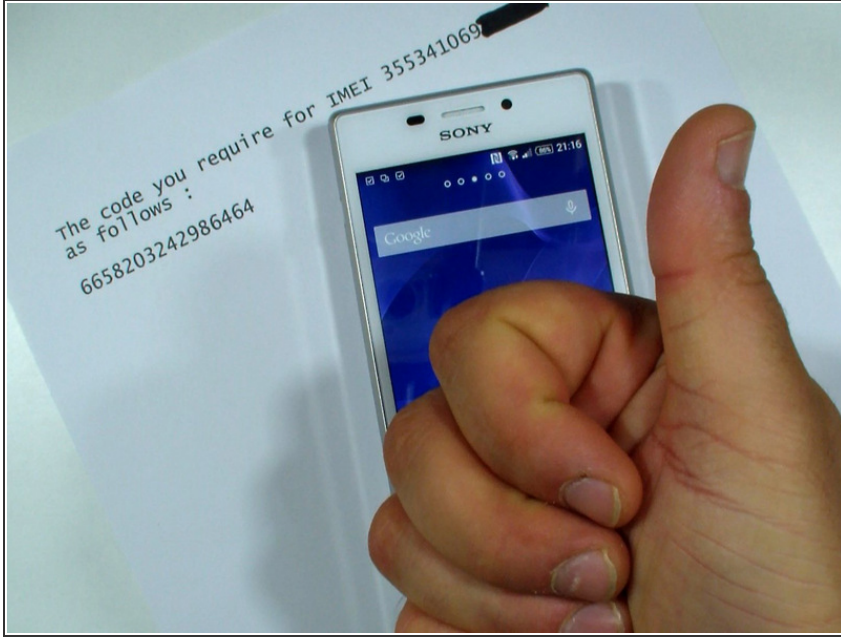

- ⚠ There should be an "X" before Network and the counter should show number above 0 (zero). If your counter doesn't show an "X" or shows 0 (zero) this means your phone is hardlocked and it **CAN'T** **BE** unlocked by a code.
- ⚠ Obtain your 15-digit IMEI by dialing *#06#. Never get the IMEI from elsewhere, as it could be different from the actual IMEI.

Step 3

- Enter the code provided and your handset is unlocked!

Step 4

● **That's all!**

To reassemble your device, follow these instructions in reverse order.
